A.Y.2022-23**

REPORT

World Sparrow Day is an international initiative by the Nature Forever Society (NFS) of India in collaboration with the Eco-Sys Action Foundation (France) and numerous other national and international organizations across the world. The idea of celebrating World Sparrow Day came up during an informal discussion over tea at the Nature Forever Society's office.

The first World Sparrow Day was celebrated in 2010 in different parts of the world.

The purpose of House Sparrow Day is to convey a message of conservation of the House Sparrow and other common birds, as well as to celebrate the common biodiversity that we take for granted. It is important to appreciate that nature does not come with a lifetime warranty.

Motivational Speech on World Sparrow day was organized at Rjspm's ACS College Landewadi, Bhosari, Pune-39 on 20/03/2023.

On the occasion H.O.D. of Biotechnology Department Prof. Sachin Chavan gave Motivation Speech on Sparrow day, to create awareness regarding conservation and protection of house sparrow and other common birds.

All biotechnology Department Staff, and 35 Students of B.Sc and M.Sc. Biotechnology were participated in event.

Date: 27th April 2023

Organized by : Department of Computer Science in Collaboration with ExcelR Technology

Fundamentals of Full Stack Development program hosted by Rajmata Jijau Shikshan Prasarak Mandal's ACS College in Collaboration with ExcelR Technology for the B.Sc. (Computer Science) department students. The students of Computer Science department have attended this course online mode from 3th April 2023 to 25th April 2023.

The purpose of course to provide opportunity to students to experience current emerging technologies and get knowledge to the development of the front-end and back-end of a website. A full-stack developer is one who has good knowledge of front-end (HTML, CSS, JavaScript and Bootstrap) along with frameworks, and back-end (APIs, NodeJS) integrating with databases (Oracle, MongoDB, and SQL). The front end is the UI (User Interface) part of the application, the back end takes care of the data management and servers.

The complete website which you see is because of full-stack developers. Having the required technical skills, and being updated with the latest tools and technologies are the basic skills you must have as a full-stack web developer. This course for full stack development – provided by ExcelR is a complete package where in you require no prior experience in tech and no programming skills. It comes with beginner-level learning, where in you'll be taught from the basics of web development (HTML, CSS, JavaScript and Bootstrap) to the advanced level which is project deployment.

This was very beneficial for students.
