REPORT ON GUEST LECTURE

Date: 10 June 2023

SUBJECT OF LECTURE : Tips for Learning Japanese
NAME OF LECTURER : Mr. Vikas Kaizen
ORGANIZED BY : Computer Science Department

Computer Science Department organized an engaging guest lecture, this time with a highly relevant topic: "Tips for Learning Japanese". The main speaker for this event was Mr. Vikas Kaizen, expertise in Japanese language. In this spirited lecture session, Mr. Vikas Kaizen shared valuable insights on how to effectively master the Japanese language. A key point emphasized was the importance of courage in speaking Japanese. Mr. Kaizen emphasized that while students are bound to make mistakes when learning, this is a natural part of the learning process. What is more important is how students can learn from their mistakes and avoid repeating them in the future.

To become aware of language mistakes, Mrs. Kaizen explained that students need to have a strong command of Japanese vocabulary and grammar. Vocabulary is a key to success in understanding and communicating in Japanese. To improve vocabulary retention, the speaker offered a practical tip: During practice, students should not only read and memorize vocabulary, but also write and pronounce it at the same time. This technique can help consolidate vocabulary memory more effectively.

The guest lecture event received a very positive response from the students.
